I would also like to order:

- Rope
- Hood: CarbonX (black) Nomex (white)
- Gear Bag
- Gloves (size: _____)
- Boots (size: _____)

How to Measure and Size

Using a tape measure:

Chest - Measure loosely over clothing around fullest part of chest, below arms, with arms up or out. Take a deep breath before reading measurement.

Waist - Measure around outside of pants belt. Give us the exact measurement. Do NOT order a size smaller than measurement taken.

Inseam - Measure from crotch seam (inside leg) to top of ankle bone. If you wear your pants baggy, be sure to pull the crotch up tight, then take your measurement.

Sleeve Length - Measure from backbone, around bent arm, to wrist.

Women Only:

Chest/Bust - Measure over clothing, around fullest part of bust, below arms with arms up or out.

Hips - Measure over clothing, around fullest part of the hips.
